<https://archive.org/details/b30124980>

To the Chairman and Councillors of the
St. Austell Rural District Council and
the Municipal Borough of Lostwithiel.

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present the Annual Reports on the Health and Sanitary circumstances of the St. Austell Rural District and Lostwithiel Municipal Borough for the year 1967. The Lostwithiel Municipal Borough joined with the St. Austell Rural District in April, 1968.

The picture presented is satisfactory. infant mortality is low over the whole district. The real impact of the prophylactic preventive measures against notifiable diseases is shown by the absence of notification. in the Rural District apart from 2 cases of tuberculosis only measles occurred and in Lostwithiel only measles.

The Services supplied by the County Council are the same throughout the whole of Health area IV which includes both the Rural District and the Borough.

I regret to report that Mr. Setchell who was ill throughout most of 1967 died shortly after the union of St. Austell Rural District and Lostwithiel Municipal Borough. Mr. Lawless and Mr. Down covered the Public Health duties of Lostwithiel during this period.

I must thank Mr. Lawless for his co-operation and for his assistance with this report, also the public health staff for the cheerful help always willingly given. It is also a pleasure for me to record the goodwill and help of all other Officers of the Council.

At this point I usually thank the Health Committee for the interest and courtesy shown to the Public Health Department, but this time I feel I must thank particularly the Lostwithiel Health Committee, and confess that I shall miss them.

I have the honour to be

Your obedient Servant.

J. McGovern.

Medical Officer of Health.

SECTION A

National and Social Conditions of the Area

St. Austell Rural District

Area	...	82,389 acres
Population	...	22,170
Number of Inhabited Houses	...	7,355
Rateable Value	...	£787,329
Product of Penny Rate	...	£3,203

Lostwithiel Municipal Borough

Area	...	3,156 acres
Population	...	1,900
Number of Inhabited Houses	...	883
Rateable Value	...	£43,322
Product of Penny Rate	...	£186

The St. Austell Rural District has three main sources of income, farming, China Clay and tourism. Surprisingly these industries do not conflict with one another, and the China Clay region exerts an attraction to the tourists, with its Moon landscape. The China Clay Industry, which has grown in stature steadily particularly over recent years, provides steady all the year employment for many in the Rural District. The climate, as can be expected, varies, being drier and more bracing on the northern aspect and wetter and milder on the south coast.

Lostwithiel is a quiet country town set in pleasant surroundings in the valley of the Fowey River. The Town has many historic associations and has some very well preserved buildings. The only industry of any consequence is the milk depot.

SUMMARY OF VITAL STATISTICS

St. Austell Rural District

<u>Live Births</u>	<u>Male</u>	<u>Female</u>	<u>Total</u>	<u>Rate/1,000 Population</u>	
Legitimate	149	162)	328	<u>Rural Dist.</u>	<u>England and Wales</u>

SECTION B

Public Health Staff

(a) Medical Officer of Health

J. McGovern, M.B.Ch.B., D.P.H.,
Area Health Office,
Moorland Road,
St. Austell.
St. Austell 2206.

(b) St. Austell Rural District Public Health Inspectors

H.G. Lawless, Cert. S.I.B., Food Inspector's Certificate
T.J. Down, Cert. S.I.B.

(c) Clerk

Mrs. E.A. Freer

(d) Lostwithiel Municipal Borough Public Health Inspector

C.A.L. Setchell, A.M.I.S.E., M.R.S.H.

Laboratory Facilities

These were available at the Public Health Laboratory, Royal Infirmary (City), Truro.

Personal Services

These services are provided by the Cornwall County Council and include such activities as home nursing, domiciliary midwifery, health visiting, vaccination and immunisation, maternity and child welfare, ante and post natal care, home help, visits to the elderly and the various aspects of school health. The business of a Local Authority health department is to not only take measures to prevent disease but to try to recognise disease in an early stage, particularly those killing diseases which can be cured if treated early. In this respect it is worth recording that during 1967, 875 women were examined at the cervical cytology clinics. These clinics provided a wider screening than merely smear tests. Medical examinations were carried out by a lady doctor, urine checks made and breasts examined. The cover, thus provided, extended to checking for many pelvic conditions, breast cancer, kidney disease and diabetes. Many gynaecological conditions were discovered which if left untreated could have given rise later to much ill-health. The patients were in each case advised to seek treatment from their family doctors, and the family doctors informed of the results of examinations.

A Health Education Officer was appointed by the County Council in 1967. This forward step will pay dividends in the future since the ability to use teaching aids to the best advantage is a specialised technique. A considerable extension of the Welfare Services has taken place with a closer relationship between welfare and mental welfare.

Clinics functioning throughout the area are given, since all clinics cater for people from the Rural District area and the Borough.

Clinics

The following clinics are held at the places and dates indicated :-

	(Roche	- Victory Hall - 1st & 3rd Tuesday each month
	(Indian Queens	- Victory Hall - 3rd Wednesday each month
	(Summercourt	- Memorial Hall - 2nd Wednesday each month
	(Par	- Gott Hall - 2nd and 4th Tuesday each month
Child Welfare	(Bethel	- Church Hall - 2nd Wednesday each month
	(Charlestown	- Church Hall - 4th Wednesday each month
	(St. Austell	- Moorland Road - 1st and 3rd Wednesday each month
	(Newquay	- Red Cross Hall - 1st and 3rd Thursday each month
	(Newquay	- St. Columb Minor - 2nd and 4th Thursday each month

Maternal Natal	(St. Austell	- Penrice Maternity Hospital - every Wednesday morning
	(Newquay	- St. John's Ambulance Hall - every Thursday afternoon
Cervical Cytology (Smear Test)	(St. Austell	- Moorland Road)
	(Newquay	- Hospital) by appointment
Orthopaedic	(St. Austell	- Moorland Road - every Tuesday morning
	(Newquay	- St. John's Ambulance Hall - every Thursday afternoon
Tuberculosis	(St. Austell	- Hospital - every Monday
	(Newquay	- Hospital - 1st, 3rd and 5th Tuesday of the month
Tuberculosis Contacts	(St. Austell	- Hospital - 1st and last Tuesday afternoon
	(Newquay	- Hospital - 3rd Tuesday afternoon
Dental	(St. Austell	- Moorland Road - Daily
	(Newquay	- Berry Road - three times per week
Ophthalmic	(St. Austell	- Moorland Road - Tuesday by appointment
	(Newquay	- Hospital - By arrangement
Ear Nose and Throat	(St. Austell	- Moorland Road - By arrangement
	(Newquay	- Hospital - By arrangement
Psychiatric	(St. Austell	- Moorland Road - Each Monday morning and each Friday afternoon
	(St. Austell	- Moorland Road - 2nd, 3rd & 4th Friday evening 6.30 - 8.0
Family Planning	(	- Moorland Road - 2nd Monday afternoon 2.30 - 4.0
	(	
Child Guidance	(St. Austell	- Moorland Road - Every Thursday
Speech Therapy	(St. Austell	- Moorland Road - Each Friday
Venereal Disease	(St. Austell	- Hospital - Tuesday 1 p.m. - 2 p.m.
	(Newquay	- Hospital - Wednesday 4.30 - 5 p.m. women 5.15 - 5.45 p.m. men

SECTION C

Sanitary Conditions

Water

The North and Mid Cornwall Water Board supplies over 80% of the Rural District population with water, which is good in quality and not plumbo-solvent. Frequent sampling was carried out in various parts of the Rural District throughout 1967. samples from the Board supplies numbered 358, of these 4 were unsatisfactory. Well supplies to individual premises were sampled on 30 occasions, 9 of these being unsatisfactory. In all cases of unsatisfactory samples remedial measures are taken. Lostwithiel Borough is supplied from the North and Mid Cornwall Water Board through the Restormel Works - all samples taken were satisfactory.

Sewerage

The Fraddon Scheme which was commenced in 1965 was completed in February, 1967. Work on the Sticker Scheme was making satisfactory progress. The following parishes are still without facilities viz.. Creed, Ianlivery, Luxulyan, St. Ewe, St. Wenn, and St. Michael Caerhays. In the Borough steps are being taken to push ahead with the Sewerage Scheme contemplated for some years past.

Rodent Control

No operator employed by the Council. Domestic complaints are dealt with by the Public Health Inspectors, and tips and sewage works by the Council's staff normally engaged thereon.

Beaches

The Council continues to employ two lifeguards. There was one fatality which occurred whilst the only lifeguard on duty at the time was off the beach taking a short lunch. On other beaches lifelines and lines were maintained. Arrangements were made to scavenge one beach.

Scrap Metal Dealers

Thirty three dealers were registered under the Act. There are none which can properly be described as 'itinerant', and none have been so registered.

Animal Boarding Establishments

There are three, which have been found to be satisfactory and registered.

National Assistance Act, 1948

One person was buried and the cost defrayed by the rates.

Petroleum Acts

Seventy eight licences were issued to retailers and private users of petrol from pumps. Tests were required on all petrol tanks over 20 years old.

Litter

Bins provided by the County Council at lay-bys are emptied during the summer months, and payment is made to us of 1/6 per bin or sack.

Refuse Collection

No change. Four vehicles serve practically all the dwellings in the area weekly, and a daily collection is made at R.A.F. Station, St. Mawgan, for which the Air Ministry pay. The summer influx of visitors, campers and caravanners puts considerable extra work on the service.

Refuse Disposal

One tip only, operated with a mechanised scraper/shovel.

Housing

Thirty three houses in the Rural District were the subject of Demolition or Closing Orders. Defects were remedied by informal action in respect of 52 houses. In respect of the Municipal Borough informal notices and interviews with owners secured necessary repairs in 30 instances.

Public Conveniences

The Council own and maintain 10 public conveniences and contribute towards the upkeep of two others which are privately owned. Agreement has been reached for the provision of a public convenience at Golant and a new one has been provided at Portholland in conjunction with the Truro Rural District Council.

Improvement Grants

Number approved in 1967 :-	Standard	38
	Discretionary	42
		80

involving eventual payment of about £20,500.

SECTION E

Inspection and Supervision of Food

Milk Supplies

No complaints have been received about the keeping quality or delivery arrangements.

Ice Cream

Almost always retailed pre-packed. The locally manufactured article is regularly sampled, and where sold from bulk, supervision is made of utensils, storage, etc. All Retailers have proper refrigerators. Itinerant Vendors have suitable equipment and carry proper hand-washing facilities.

Cafes, Restaurants and Food Catering Premises

Visits of inspection are regularly made to all food preparing premises and in general the standard of the cleanliness is satisfactory.

Meat Inspection - Slaughterhouses

100 per cent inspection continues throughout the district and the excellent quality can readily be seen from the following table.

	Cattle Excluding Cows	Cows	Calves	Sheep and lambs	Pigs	Horses
Number killed	524	-	-	114	446	-
Number inspected	524	-	-	114	446	-
All diseases except Tuberculosis and <u>Cysticerci</u>						
Whole carcase condemned	Nil	-	-	-	-	-
Carcases of which some part or organ was condemned	39	-	-	4	-	-
Percentage of the number inspected affected with disease other than tuberculosis and cysticerci	7.6	-	-	3.5	-	-
<u>Tuberculosis Only</u>						
Whole carcase condemned	Nil	-	-	-	-	-
Carcases of which some part or organ was condemned	Nil	-	-	-	5	-
Percentage of the number inspected affected with tuberculosis	Nil	-	-	-	1.1	-

Carcases of which some part or organ was condemned	2	-	-	-	-	-
Carcases submitted to treatment by refrigeration	Nil	-	-	-	-	-
Generalised and totally condemned	Nil	-	-	-	-	-
Gross Weight Condemned (estimated)	10 lbs	-	-	18 lbs	50 lbs	-

Other Foods

Condignitions :-

266 lbs Canned Meat
 80 lbs Frozen Turkeys
 14 lbs Frozen Kidneys
 30 cans Evaporated Milk
 21 cans Fruit
 9 lbs Miscellaneous Tinned Food

SECTION F

St. Austell Rural District

Prevalence of and control over infections and other diseases

<u>Disease</u>	<u>1966</u> No. of cases - St. Austell Rural District
Measles	189
Pulmonary tuberculosis	2

Immunisation

	Children born in years						Total
	1967	1966	1965	1964	1963-60	1959-51	
Primary Immunisation (Diphtheria, Tetanus & Whooping Cough)	80	81	9	1	7	8	186
Reinforcing Immunisation (Diphtheria, Tetanus & Whooping Cough)		21	43	4	62	14	144
Primary Immunisation (Diphtheria & Tetanus)					2	1	4
Reinforcing Immunisation (Diphtheria & Tetanus)			1	2	5	18	26
Primary Tetanus						4	4
Reinforcing Tetanus						7	7

Smallpox Vaccination

157 primary vaccinations and 23 revaccinations were carried out in 1967.

Immunisation against Poliomyelitis

The oral vaccine is the only one now used and is freely available to all Medical Practitioners from the Area Health Office, St. Austell.

Oral Polio Vaccination

	1967	1966	1965	1964	1963-60	1959-51	Total
Primary	88	164	26	15	75	24	392
Booster		9	20	7	189	80	305

Tuberculosis

The number of cases on the register at 31st December, 1967 was :-

<u>Pulmonary</u>	52 males	28 females
<u>Non Pulmonary</u>	3 males	2 females

The number of Pulmonary Tuberculosis cases on the register, dropped from 82 to 80 inspite of 2 new notifications, while the Non-Pulmonary cases dropped from 7 to 5.

Tuberculosis Prevention

Although the number of deaths from tuberculosis has diminished very notably over the years, and the notification of new cases has diminished also, but less markedly, a vigorous policy of prevention has been pursued in the County of Cornwall. School children in the age group 11 years are offered B.C.G. vaccination against the disease. In 1967 following preliminary testing of 857 children in the selected age group, 613 children received B.C.G. Children who have already received the vaccine in early life and show a positive reaction on testing do not need vaccination and hence the discrepancy between those tested and those receiving the B.C.G.

In addition to the above, all new cases are visited by the Tuberculosis Health Visitor in order to assist in any measures needed to ensure continuation of treatment, cases on the list receive follow-up visits, and contacts of cases are visited and advice given regarding Xray examination. Patients receive advice regarding the need for care in preventing the spread of the disease to contacts.

Lostwithiel Municipal Borough

Prevalence of and control over infectious and other diseases

<u>Disease</u>	<u>Number of cases during 1967</u>	
Measles	45 males	42 females

Immunisation

Triple (Diphtheria, Tetanus and Whooping Cough)
